## A. GENERAL INFORMATION | SUPPLY OF ADVERTISING MEDIA

### **Supplying your Advertising Media please note our deadlines before starting the campaign:**

- standard Advertising formats: min. three working days
- special advertising formats: min. five working days
- supply to: ads@weischeronline.de

### **The following informations are mandatory for a goal-oriented production flow:**

- name of customer, name of campaign
- booking period
- reserved site/s, placement on site/s
- advertising format
- contact person in case of questions
- click-url/s, name of motif as well as an alternative text (optional)
- GIF / JPG / as fallback, in case user has not HTML5

## A. GENERAL INFORMATION | SUPPLY OF ADVERTISING MEDIA

### **Supply of Advertising Media:**

- Please state explicitly if you wish one campaign with several motifs and different placement units.
- In case of advertising media exchange please advise us of relevant motifs and timed placements. Please also be aware of the time limits before exchange: three working days standard advertising (five working days nonstandards).
- For a smooth production flow please pay attention to our following technical specifications (max. files sizes, pixel sizes of the different advertising formats).
- For more information, please see the relevant pages.
- Advertising material which do not correspond in our specs we are regrettably unable to work with.

## A. GENERAL INFORMATION | REDIRECT

All standard advertising media can be supplied as a redirect.

### **Requirements:**

- The link opens an active, new window.
- The preparation of a redirect will require these features: HTML5 specifications and individual functionality of different advertisings (close-button, ton closes with video end e.g.).
- Please don't distribute cookies over the redirect.
- All redirects und countingpixels must be http-compliant. This also applies to included trackings.

Please send us redirects as text files / attachments and don't paste redirects as a text in your email.

## A. GENERAL INFORMATION | HTML5

### **General Guidelines**

- HTML5 Ad Delivery: Deliver the ad as index.html with complete HTML syntax (Doctype definitions, <head>, <body>, etc.).
- Embedded Content: Include as much content (scripts, CSS, etc.) directly in the index.html instead of separate files.
- External Resources: Ensure external resources are server-side enabled for cross-domain access (CORS).
- Device Orientation: Optimize the ad for both “Landscape” and “Portrait” orientations.
- User Action Tracking: Tracking/counting user actions (other than clicks) must be done by the ad creator.

### **JavaScript Guidelines**

- Compact Frameworks: Use small, compact JS frameworks. Larger libraries like jQuery are generally unnecessary and increase the data load exponentially.
- Code Minimization: Minimize the final JS code as much as possible using tools like Minifiers.
- Performance Optimization: Avoid logs (e.g., console.log) and errors to optimize performance and avoid overloading the browser console.

### Click Measurement

- Option for Measurement: You have the option to let us measure clicks on links to external pages. For this, a dynamic assignment of the link URLs must be enabled in the HTML5 advertising material.
- URL Insertion: When the advertising material is played out, the complete URLs from Weischer.Online are inserted into the advertising material and measured when the user clicks.
- Placeholder Links: Fill all links to be measured with the name “#clickTag” as a placeholder and an identical ID attribute. If you wish to use different links with various destinations, you must number the placeholders consecutively (“#clickTag”, “#clickTag2”, etc.).

```
<a href="#clickTag" id="clickTag" target="_blank">Linktext 1</a>
```

```
<a href="#clickTag2" id="clickTag2" target="_blank">Linktext 2</a>
```

## A. GENERAL INFORMATION | HTML5

Insert the following script in the <head> of your advertising material:

```
<script type="text/javascript">
var getUriParams = function ()
{
    var query_string = {};
    var query = window.location.search.substring(1);
    var parmsArray = query.split('&');
    if (parmsArray.length <= 0) return query_string;
    for (var i = 0; i < parmsArray.length; i++)
    {
        var pair = parmsArray[i].split('=');
        var val = decodeURIComponent(pair[1]);
        if (val != '' && pair[0] != '') query_string[pair[0]] = val;
    }
    return query_string;
}();
</script>
```

- Either at the end of the HTML file or when initiating the advertising material, trigger the dynamic assignment of URLs with the following code:

```
<script type="text/javascript">
    document.getElementById('clickTag').setAttribute('href', getUriParams.clickTag);
    document.getElementById('clickTag2').setAttribute('href', getUriParams.clickTag2);
</script>
```

## A. GENERAL INFORMATION | HTML5

- At the end of the index.html file, a post-message is needed to transport the close event outside of the IFrame.
- The class name of the close button must be adjusted accordingly.

```
<script>
  document.getElementsByClassName("gwd-image-gp0v gwd-gen-19k5gwdanimation")[0].addEventListener("click", function() {
    window.parent.postMessage("closeWeischerPrestitial", "*");
  });
</script>

</body></html>
```

## B. ADVERTISING STANDARD| FORMATS AND SIZES

Advertising	Pixel	Weight (max.)	Formats (Options)
Skyscraper	120x600	200 KB	GIF / JPG / HTML5
Wide Skyscraper	160-200x600	200 KB	GIF / JPG / HTML5
Medium Rectangle/ Content Ad	300x250	200 KB	GIF / JPG / HTML5
Supersize Banner / Super Banner	728x90	200 KB	GIF / JPG / HTML5
Wallpaper	728x90, 120-160x600 + background	200 KB	GIF / JPG / HTML5
Billboard	800x250 / 970x250	200 KB	GIF / JPG / HTML5
Halfpage Ad	300x600	200 KB	GIF / JPG / HTML5
Dynamic Sitebar	≥300x600	<200 KB	GIF / JPG / HTML5

## B. ADVERTISING STANDARD | WALLPAPER

A wallpaper contains a (wide) skyscraper, a superbanner and a background color (colorcode: hexadezimal). Usually the superbanner docks with the sky on right side.

The sky might be sticky.

The advertising media will be supplied as a redirect (relative positioning of both ads) or physical.

- Size Superbanner: 728x90 px
- Size Skyscraper: 120-160x600 px
- Size Wide Skyscraper: 300x600 px
- Total Weight: 200 KB
- Format: GIF / JPG / HTML5

## B. ADVERTISING STANDARD | BILLBOARD

The billboard is played between header and content. Therefore the advertising pushes the content down. Optionally the billboard might be placed on superbanner-position.

Please deliver the billboard via a redirect or physically.

- Size: 800x250 or 970x250 px
- Weight: 200 KB
- Format: GIF / JPG / HTML5

Showcase-Link: <https://showcase.weischeronline.de/billboard/>

## B. ADVERTISING STANDARD | MEDIUM RECTANGLE

The Medium Rectangle is displayed within the content.

- Delivery: physical including counting pixel and click command or as a redirect.
- Size: 300x250 px
- Weight: 200 KB
- Format: GIF/ JPG/ HTML5 or as a redirect

Showcase-Link: <https://showcase.weischoonline.de/medium-rectangle/>

## B. ADVERTISING STANDARD | HALFPAGE AD

A large-scale advertising format in the right-side panel.  
It might be sticky.

Please deliver the wallpaper via a redirect or physically.

- Size: 300x600 px
- Weight: max. 200 KB
- Format: GIF / JPG / HTML5

Showcase-Link: <https://showcase.weischeronline.de/skyscraper/>

## B. ADVERTISING STANDARD | DYNAMIC SITEBAR

The Dynamic Sitebar is placed to the right of the content and fills the area up to the screen edge and besides adapts itself dynamically to the screen size.

A dynamic sitebar means remain sticky and is always in the view area of the user.

- Size: from 300x600 px or bigger
- Weight: max. 200 KB
- Format: HTML5

Please deliver the advertising as a redirect.

Please, consider the following conditions :

- The link has to open a new window
- No cookies about the redirect may be strewn

## C. ADVERTISING SPECIALS | FORMATS AND SIZES

Ad	Pixel	Weight (max.)	Formats (Options)
Fireplace	see chart page 17		GIF / JPG / HTML5
Videotakeover	see chart page 19		GIF / JPG / HTML5/ MP4
Preroll	854x480	3,9 MB	MP4
Interscroller Ad	720x1280 / 300x600	200 KB	GIF / JPG / PNG
Prestitial / Interstitial	1.280x800	200 KB	GIF / JPG / HTML5

## C. ADVERTISING SPECIALS | FIREPLACE

A Fireplace contains one superbanner and two skyscrapers.  
The skyscraper are docking with superbanners left and right side and might be sticky.

- Size SB: each width\* x 210 px
- Size Sky: each 200x850 px
- Weight: each max. 200 KB
- Format: JPG, HTML5\* or Redirect

Please declare the colorcode for the background color.

Page list please see page 18.

Showcase-Link: <https://showcase.weischeronline.de/Fireplace/>

## C. ADVERTISING SPECIAL | PAGE WIDTH

Header Size	Seite
942 Pixel	filmdienst.de (responsive) serienjunkies.de
982 Pixel	cineplex.de cineweb.de critic.de robots-and-dragons.de
1.002 Pixel	blairwitch.de fernsehplan.de filmfutter.com (responsive) quotenmeter.de
1.032 Pixel	kulturnews.de (responsive) moviejones.de (responsive) spot-mediafilm.com
1.170 Pixel	ofdb.de
Responsive	UCI-kinowelt.de cinemotion-kino.de cinedom.de kino-zeit.de riecks-filmkritiken.de ufa-duesseldorf.de quizworld.de

## C. ADVERTISING SPECIAL | VIDEOTAKEOVER

The videotakeover is placed over the content as a moving image advertising medium.  
By mouseover (Cineplex: Mouseclick) via button the expanded video starts automatically.

A close button is required and should be placed in the upper right corner of the expanded header.  
This terminates the expanded video window by a user click.

After video has completed, a PLAY-button appears in the header for starting again.  
The average utilisation of CPU-capacity should not be higher than 50%.

General information:

- Several linkings are possible.
- Please supply the optional backgroundcolor in hexadecimal code.
- For more page format details please see page 18.

## C. ADVERTISING SPECIAL | VIDEOTAKEOVER

### Picture elements:

- Size: Superbanner: 210 x page width (see page 16)  
2x Skyscraper: 200x850 px
- Weight: Single elements max: 200 KB
- Format: HTML5  
GIF / JPG as a Fallback

Delivery as redirect possible.

### Video elements:

- Video in Header: "Sound OFF" when starting (optional: per click "Sound ON")
- Video in exp.Header: "Sound ON" when expanding
- Video length: max. 30 sec.
- Weight: max. 5,5 MB
- Stream: 1 Videostream (using 2 streams, one must pause)
- Format: MP4
- Button: Close-Button, Audio-Button, Pause-Button

Hosting via Weischer.Online GmbH is possible. Please supply in the best possible quality, for example HD.

## C. ADVERTISING SPECIAL | PREROLL AD

Prerolls are commercials that can be placed on the website before trailers.

- Length: 20 Seconds (longer running time up to a maximum of 30 sec. at an additional cost)
- Size: 854x480 px
- Other optional sizes in the 16:9 ratio (in px: 640:360 , 960:540 and 1024:576, 1920:1080) and sizes in the 4:3 ratio (in px: 640:480 and 960:720) must be considered depending on the websites to be played
- Weight: max. 3,9 MB
- Linking is possible

Please deliver the video material in the best possible quality, if possible, in MP4 format.

The video can also be delivered as a VAST redirect (only includes MP4 – no VPAID or similar).

We only use the VAST version 2.0 protocol (Video Ad Serving Template).

## C. ADVERTISING SPECIAL | INTERSCROLLER AD

The Interscroller format is placed behind the content and pulls up when scrolling.

The ad is delivered as mobile and desktop format.

- Delivery: physical incl. tracking pixel and clickcommand  
Javascript or iframe redirect without scroll effect
- Size Desktop: 720x1280 px
- Size Mobile: 300x600 or 320x480 px
- Weight: 200 KB
- Format: GIF / JPG / PNG

Showcase-Link: <https://showcase.weischeronline.de/interscroller/>

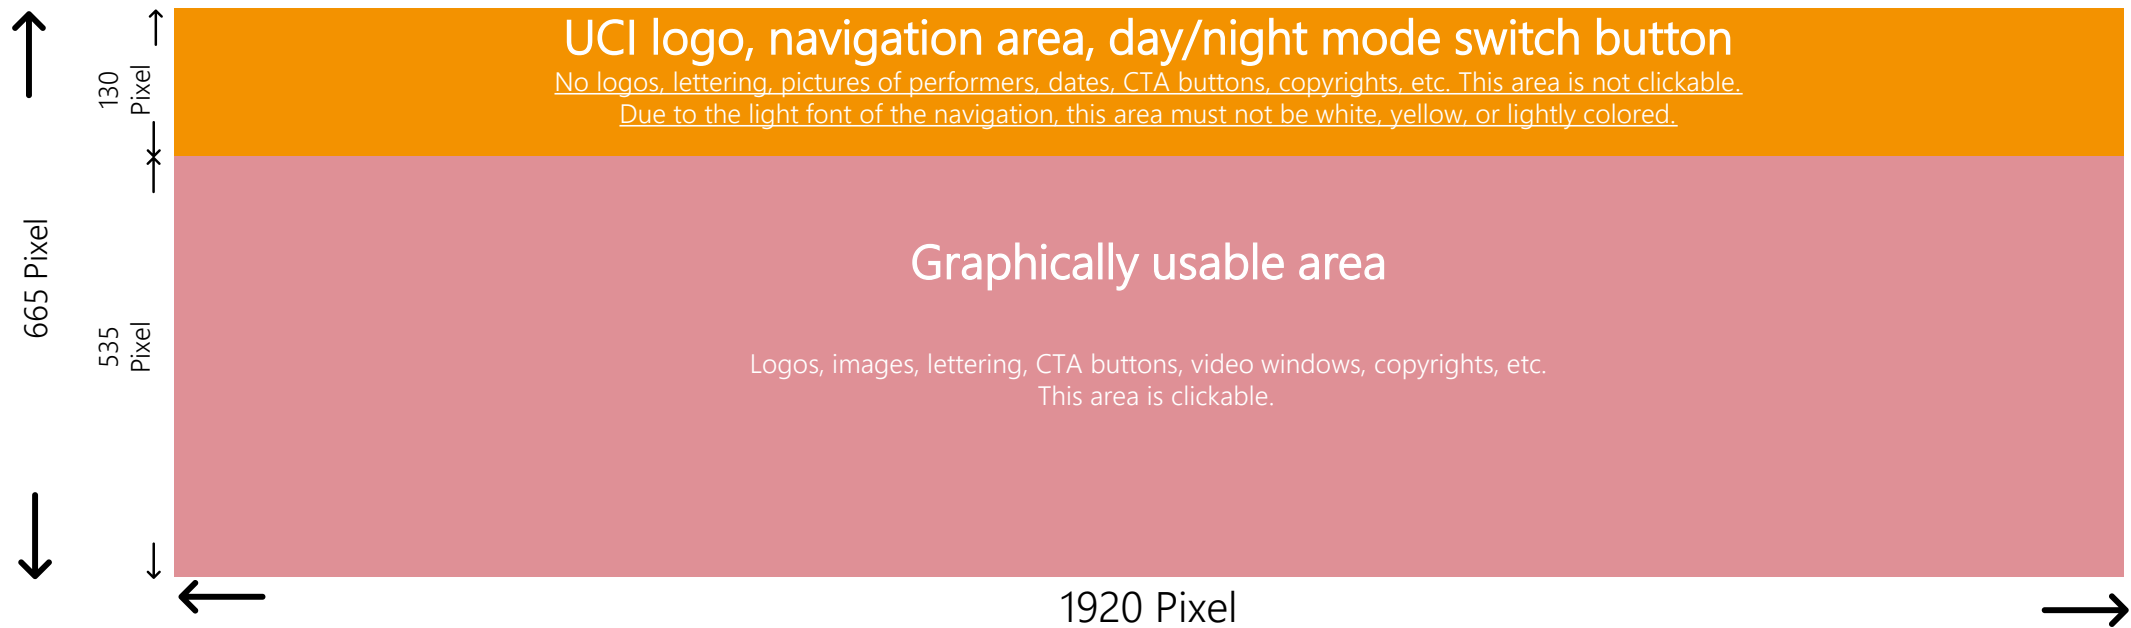

## C. ADVERTISING SPECIAL | HEROPICTURE

The ad can be delivered as mobile and desktop format.

- Delivery: physical (GIF / JPG / PNG)
- Size Desktop: 1920x665 px
- Size Mobile: 770x665 px
- Weight: 200 KB
- Z-Index: 1-999

## C. ADVERTISING SPECIAL | HEROPICTURE 1920X665 PIXEL

Delivery: physical (GIF / JPG / PNG)

Z-Index: 1-999

Showcase-Link: <https://showcase.weischeronline.de/herobild/>

## C. ADVERTISING SPECIAL | TOP BANNER

The top banner presents itself prominently and is always visible to the user at the top of the page in the banner bar.

The ad can be delivered as mobile and desktop format.

- Delivery: physical (GIF / JPG / PNG)
- Size Desktop: 1920 x 120 px
- Size Mobile: 770 x 120 px
- Weight: 200 KB

Showcase-Link: <https://showcase.weischeronline.de/topbanner/>

## C. ADVERTISING SPECIAL | PRESTITIAL / INTERSTITIAL

A Prestitial is a full-page advertisement that precedes the actual website - while the Interstitial also appears when the website is updated. After 20 seconds (depending on the length of the video), the Inter-/Prestitial closes independently.

The advertising material adapts to the user's display and is full-surface. This is made possible by reading the screen size (clientWidth / clientHeight) and scaling the content accordingly (transform: scale).

- Format: \*HTML5 (JPG, GIF, PNG, HTML, Javascript) Background Colour
- Closing time: after a maximum of 20 seconds
- The physical advertising material and, if necessary, the video as an MP4 file are required. The advertising material can be also delivered as a redirect
- A close button must be integrated at the top right, clearly recognizable and contain the word "close X"
- The sound may only start through user interaction and ends immediately by closing the video window
- After clicking and forwarding, the ad must close automatically
- Weight: max. 400 KB
- Size of the graphics: Dynamic and appropriate to the scaling of the advertising material
- The ad must be recognizable as advertising
- Z-Index: 111000

The close button closes the advertising material using Javascript.

For this purpose, for example, the assignment of the ad wrapper with the help of display='none' or visibility='hidden' is recommended.

## D. MOBILE ADVERTISING | MOBILE SUPERBANNER

The mobile super banner is prominent and always visible to the user at the top of the page in the banner bar.

Please deliver the advertising material physically or as a redirect.

Mobile Web / App:

- Size: 300x 50 px  
300x150 px  
480x240 px  
600x300 px
- Weight: 200 KB
- Format: GIF/ JPG/ PNG  
oder als Redirect

Showcase-Link: <https://showcase.weischeronline.de/mobile-superbanner/>

## D. MOBILE ADVERTISING | MOBILE SPLASH / MOBILE INTERSTITIAL

The Mobile Splash shows up the first time a mobile page is called up and contains a close button in the upper right corner and can be closed by the user via this. Without user interaction, the advertising medium closes itself after 7 seconds.

Please deliver the image physically.

Mobile Splash (Mobile Interstitial):

- Size: 640x860 px
- Weight: 200 KB
- Format: GIF / JPG / PNG

Showcase-Link: <https://showcase.weischeronline.de/mobile-splash/>

## D. MOBILE ADVERTISING | MOBILE SWIPE AD

The mobile swipe ad presents itself prominently and always visible to the user at the bottom of the screen above the content. The ad closes automatically after 12 seconds but can also be terminated at any time by the user with a swipe. The time to auto close and the note to close the ad are always displayed at the top of the mobile swipe.

- Delivery: physical incl. tracking pixel and clickcommand

Mobile Web / App:

- Size: 300x150 px  
710x210 px  
800x250 px
- Weight: 200 KB
- Format: GIF/ JPG/ PNG

Showcase-Link: <https://showcase.weischeronline.de/Swipe/>

## D. MOBILE ADVERTISING | MOBILE MEDIUM RECTANGLE

The mobile medium Rectangle is placed within the content.

- Delivery: physical incl. tracking pixel and clickcommand or as a redirect
- Size: 300x250 px
- Weight: 200 KB
- Format: GIF/ JPG/ HTML5 or as redirect

Showcase-Link: <https://showcase.weischoff.de/medium-rectangle/>

## D. MOBILE ADVERTISING | MOBILE BRANDBUSTER

The mobile BrandbusterAd presents itself prominently and is always visible to the user at the top and bottom of the screen above the content. The lower advertising medium closes automatically after 12 seconds but can also be ended at any time by the user with a swipe. The time to auto-close and the note to close the lower ads are always displayed at the top edge of the advertising medium.

- Delivery: physical incl. tracking pixel and clickcommand or as a redirect
- Size: 800x250 px  
710x210 px
- Weight: 200 KB
- Format: GIF/ JPG
